Public consultation on Type Approval regulations – Jordan

Dear Sir / Madam

This is with regards to the public consultation on your draft instructions to obtain Type Approval, based on the decision of the Board of Commissioners of the Telecommunications Regulatory Authority No (5-2023/12) dated (2023/11/22), notification found [here](#).

On behalf of our client, we would like to comment and make suggestions to the proposed draft instructions for obtaining Type approval in the Kingdom.

1. We would like to recommend for the certificate validity to remain 3years and not be reduced to 1year. Globally, the majority of certificates validity are from 3years and above.

Kind Regards
